## STRATEGIC OBJECTIVE

To leverage current technology planning efforts in our region, the region’s broadband infrastructure and our investment in middle-mile fiber plant to enhance our region’s economic vitality and quality of life.

## STRATEGIC PRIORITIES

<td><strong>GOALS</strong></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>1. The number of new businesses entering the county and existing business retention and expansion increased due to the County’s broadband capacity and technically fluent workforce.</td>
<td>2. Affordable broadband is accessible to everyone residing in Wasco County.</td>
<td>4. Healthcare and education providers are able to serve county residents’ needs via broadband, improving health and education outcomes.</td>
<td>5. Availability of high capacity broadband service in ALL Wasco County communities – urban AND rural.</td>
</tr>
</tbody>
</table>

### Strategies & Tactics

(1) **Economic Development**

- a. Market the business and quality-of-life benefits of The Dalles and Wasco County as a “connected community” to large employers with a telecommuting workforce.
- b. Recruit and support local entrepreneurs in technology fields to start or expand businesses in the county.
- c. Assist fruit growers and other local businesses to adopt broadband-enabled strategies to compete in global markets.
- d. Provider collaboration on increasing adoption rates.
- e. Establish a business incubator modeled after Gorge Innoventure.
- f. Expand bi-state collaboration within Mid-Columbia Region on broadband training, adoption and rural access initiatives.

- a. Develop and promote a “zero tolerance” policy for access inequity in the County.
- b. Deploy an effective public awareness and outreach campaign that articulates broadband benefits and value proposition.
- c. Establish partnerships to provide digital literacy training. Develop a community-based Technology Users Group with the mission of helping others, “neighbor-to-neighbor”, with broadband/technology utilization skills.
- d. Establish means of increasing service and device affordability, e.g. neighborhood hot-spots, equipment recycle program and grants or subsidies.

(2) **Community Development**

- a. Establish a public/private consortium for collaboration and sharing best practices across the education and healthcare sectors.
- b. Establish a policy to get broadband access to every address to support healthcare and education service delivery.
- c. Initiate a pilot program to test assumptions and develop best practices for using broadband to improve healthcare and/or educational outcomes.

- a. Advocate for state or federal level policies or programs which extend rural broadband service. Participate in policy reform efforts focused on incentivizing rural accessibility.
- b. Explore partnerships to focus on last mile accessibility.
- c. Explore all possibilities for leveraging existing public and private infrastructure to bridge rural last mile gaps.
- d. Establish rural broadband pilot projects.
- e. Partnership or pilot project with OPB, OBAC and OBDD to demonstrate a rural broadband project.
